DISCUSSION ITEMS:
Teachers on Call Proposal: Teachers on Call is a Minnesota based Kelly Services Company that specializes in providing substitutes teachers and teacher aides. They have submitted a proposal for providing substitutes for our district at a significant savings. Functionally, their method of operation utilizes the same software platform (Aesop) that we use, so for any substitutes that we already use, would be that rather than being our employees they would be employed by Teachers on Call. There are materials in your packets at the board table relative to their services. It is of note that while they are headquartered in Bloomington, 66% of their clientele are rural districts and 39% of their clientele are districts our size. This will be brought back for possible action at a future meeting.
